5 Questions:

- Are you currently living a life that is what you expected and were told prior to you coming to this area/country?
- Do you know where your personal identity documents/passport are and are you able to get access to them?
- If you no longer wanted to continue doing this job would you be able to leave and get another job?
- Have you ever had threats made to you or against your family if you do not do what you are told?
- Are you able to make contact with your family or friends?

- The answers to these questions will indicate whether there is reason to be concerned about modern slavery and the welfare of the person; they should be used where you already have a concern or suspicion
- They are intended to be conversational rather than formal interview questions; you do not need to ask all of them, ask them in order or write down the answers
- Do not attempt to ask these questions if the person is not alone; it may leave you or the person at risk
- If you are not able to ask the questions but you are concerned, you should report anyway
