Any Questions / Feedback?

Slough Carers Steering Group

Adult Carers Strategy 2023-2026

support and encourage carers to manage their own health and wellbeing and, together with partners build carer resilience and make the right interventions when carers are most in need.

6 Key Priorities

1. Enable carers to access information, advice and guidance
2. Identify and recognise carers at an early stage
3. Promote carer awareness – including the valuable role they play and challenges they face
4. Provide person-centred support – to enable carers to manage their own health and wellbeing and access to the right support at the right time.
5. Ensure that Carers are viewed and listened to by professionals as experts in care
6. Support effective Integration and partnership work – including co-production and ensuring that carers voice is central to any service development.
