

SLOUGH YOUTH PARLIAMENT MANIFESTO

Health and Wellbeing: SYP will work to improve the health and wellbeing of Slough's young residents by working with local health and wellbeing agencies as well as the local authority to ensure young people's views are represented.

Equality and Diversity: SYP believe everyone can succeed, regardless of their background. We will promote equality and diversity, ensuring that all young voices are represented and that every young person feels valued and included in our community.

The World Around Us: SYP will strive to improve the world around us by engaging young people in projects that enhance our community. This will focus on areas such as the environment, transport, housing and local amenities.

Celebrating Slough's Young People: SYP will provide a platform to celebrate the successes of local young people through initiatives like the Slough Youth Awards, where we can recognise and celebration achievements.

Promoting Youth Participation: SYP will encourage and recognise youth participation with Rise-Up, Slough's first Youth Participation Conference, designed to boost involvement in community life and development of skills.

Education, Learning and Beyond: SYP will campaign to improve local education and career development opportunities within Slough. We will work to strengthen educational pathways and support systems that lead to success in various careers.

Crime and Safety: SYP will work in collaboration with partner agencies and community organisations to create safe, inclusive spaces for all young people and promoting programs that deter crime and encourage positive community engagement.
