## Older Peoples Strategy 2023-2026

**Staying healthy, remaining independent and living at home for as long as possible are important elements in achieving a good quality of life in older age.**

## 8 Key Priorities

Priority 1: To reduce social isolation and loneliness.

Priority 2: For Older People to have a continued sense of purpose to live their best life.

Priority 3: To live more years in good health.

Priority 4: To prevent Long Term Conditions.

Priority 5: To tailor Older People Information & Advice.

Priority 6: To support intergenerational families best care for their loved ones and with respect to cultural differences

Priority 7: To have a choice about where I die through a co-produced end of life pathway.

Priority 8: To have a range of housing options to suit me in later life.
